

Warranties also provided on used buses

Hanover, September 21, 2016

MAN TopUsed is now offering a drive train warranty lasting up to 24 months on used coaches and intercity buses.

MAN TopUsed sells used vehicles, including both trucks and buses, of premium quality and underpins this with a warranty. This new development means that, from 1 October 2016 onwards, MAN TopUsed will also provide customers with cover for the drive trains in used MAN- and NEOPLAN-brand buses. No vehicle is excluded based on its age – only the used vehicle's mileage and a positively rated general condition will affect the possibility of taking out a warranty. The warranty, which covers the drive train from the engine and gearbox to the axle, is available for a period of six months, one year or two years. Customers are issued with a corresponding certificate.

This means that TopUsed customers can get on the road without having to worry, and even have some flexibility in the event of a claim: MAN TopUsed will ensure that claims are dealt with quickly and efficiently at a MAN service centre of their choice.
