

tourliner

EXCLUSIVENESS MEETS ECONOMY

NEOPLAN

Time for an exclusive journey.

A COACH TO IMPRESS

The Tourliner leaves a lasting impression from the very first moment you get on board. The new cockpit, the first-class equipment and the modern design invite drivers and passengers to feel at home. Plus, the Tourliner also has a lot to offer in terms of economy and safety. Numerous innovative assistance systems in combination with the new D26 engine ensure a safe and efficient journey.

Travelling at its best.

BEAUTIFUL SYMBIOSIS BETWEEN DYNAMICS AND DESIGN

Clear and precise contours from the front to the rear panel, perfect aerodynamics as well as fascinating design elements such as the front headlights with black panel and angel eyes – the Tourliner is a real eye-catcher. Wherever your eyes take you, you will discover something new and impressive: one highlight follows the next, on both the inside as well as the outside. The new Tourliner impresses down the line and guarantees travelling at its best.

SPECIAL SENSE OF SPACIOUSNESS

The new lighting concept with indirect LED lighting throughout impresses immediately and creates a pure sense of well-being.

UNIQUE COMFORT

User-friendly service sets and optimum climate control with individual ventilation guarantee relaxed travel.

MORE STORAGE

The sophisticated design of the luggage racks is not only a visual highlight, but also means they are more generously sized and easier to access.

BARRIER-FREE MOBILITY

The level, platform-free floor, a wheelchair lift as well as two wheelchair spaces guarantee excellent barrier-free mobility.

Get on board and feel at home.

COMFORT THAT IS SECOND TO NONE

The fascinating exterior of the Tourliner is consistently continued inside. State-of-the-art colour design, high-quality materials and an innovative lighting concept create a particularly harmonious and feel-good ambience. Your passengers will be completely thrilled. The Tourliner sets highest standards in terms of travel comfort.

Lean back and enjoy.

INDIVIDUAL INFOTAINMENT

Listen, watch or just simply relax. With the latest generation multi-media system, passengers benefit from an individual and particularly qualitative infotainment experience. They can also use their own devices and charge them at the individual USB ports if needed.

FINEST MATERIALS. HIGHEST QUALITY.

Do you want to go a step further and create an ambience that appeals to all senses and is fully tailored to your travel company? Discover the variety of our individual equipment options to give your Tourliner a truly unique finish.

Designed for a fascinating driving experience.

AN IMPRESSIVE WORKPLACE

More comfort, more safety and more user-friendly than ever before: the new cockpit of the Tourliner offers all this and much more. To relieve the driver as much as possible and enable him to control the numerous innovative assistance and comfort functions intuitively, all the controls are arranged in such a way that they can be reached from a comfortable sitting position and do not distract the driver's attention from what is happening on the road.

The 12-inch digital display can be easily adapted to a wide range of requirements. The multifunction steering wheel, for example, is adjustable in height and tilt and ensures a perfectly ergonomic workplace. The numerous safety and comfort functions can be controlled easily and distraction-free via the 7-inch media display with the aid of the innovative SmartSelect control element. With its turn-and-push function, SmartSelect keeps the drivers from taking their eyes off the road while operating the infotainment and navigation menus.

Inner values also count.

OUTSTANDING ECONOMY

The Tourliner is equipped with an economical, reliable and environmental-friendly six-cylinder engine. In order to achieve the desired emission reduction, NEOPLAN relies on the combination of exhaust gas recirculation (EGR) and selective catalytic reduction (SCR). This also results in extremely low fuel consumption. Besides, the impressive engine performance of 382 kW (520 hp) makes for a unique and dynamic driving experience.

SYSTEMS THAT STAND FOR SAFETY

EPB	Electric Parking Brake
ACC	Adaptive Cruise Control
